

AKSHAY AKKENAKUNTA

Software Engineer

📞 7097474669 @ akkenakuntaakshay@gmail.com

SUMMARY

Software Engineer with 2.6 years of experience in developing scalable web and mobile applications using Angular (up to v19), .NET Core, and Ionic. Proven track record of resolving 150+ bugs, optimizing UI/UX, and improving system performance in Agile environments.

EXPERIENCE

Software Engineer

Vivid Minds Private Limited

📅 02/2025 - Present 📍 Hyderabad

A leading company in web application development

- Developed and maintained dynamic Angular 19 frontends integrated with .NET Core backend services
- Created 15+ intuitive UIs using Angular Material, Bootstrap, and Sync fusion, increasing user satisfaction score by 25%
- Improved application load time by 40% through performance tuning and code refactoring
- Collaborated with cross-functional teams including UI/UX, QA, and backend developers in Agile sprints

Associate Software Engineer

Vivid Minds Private Limited

📅 02/2023 - 02/2025 📍 Hyderabad

A leading company in web application development

- Performed debugging, troubleshooting of existing software programs, unit testing, functional testing, and implementation
- Developed user interfaces using Angular, Bootstrap, Angular Material, Sync Fusion controls, HTML5, CSS3, SCSS, and Font Awesome icons
- Resolved 150+ bugs and issues, ensuring smooth application functionality

EDUCATION

Bachelor of Technology

Vaagdevi Engineering College

📅 08/2019 - 08/2022 📍 Warangal

Diploma in Electronics and Communication Engineering

Government Polytechnic

📅 07/2016 - 06/2019 📍 Warangal

SKILLS

Angular

TypeScript

JavaScript

Bootstrap

C#

SCSS

CSS3

Tailwind

Functional Testing

HTML5

SCSS

Entity Framework

Microsoft SQL Server

MVC

PostgreSQL

SQL

ASP.NET

Sync fusion

Unit Testing

Git

Visual Studio

VS Code

.NET Core

Ionic Framework

Angular Material

PROJECTS

Quixy

📅 02/2023 - Present

A powerful no-code platform designed for rapid application development

- Quixy is a powerful no-code platform that enables users to rapidly build custom applications without writing code
- Facilitates the automation of workflows, task assignments, data management, report generation, and visual dashboards
- Offers an intuitive drag-and-drop UI builder to design user interfaces tailored to specific business needs
- Empowers users to model and automate simple to complex business processes using a visual workflow builder
- Pre-built apps can be used out of the box or customized to fit unique organizational requirements
- Tech Stack:-** Angular 19, .NET Core, PostgreSQL, Azure, OpenAI APIs, Sync fusion

PROJECTS

Caddie

An AI-powered platform for data intelligence and reporting

- Developed an AI-powered data intelligence platform designed to transform raw data into actionable insights through a user-friendly, natural language interface
- Enabled non-technical users to generate reports, detect anomalies, and analyze trends using simple sentence inputs, no coding or training required
- Built 20+ responsive UIs in Angular 19, improving user task efficiency by 30%.
- Integrated backend APIs to support real-time data flow, AI-driven analytics, and customizable reporting
