CAREER OBJECTIVE

Dedicated Software Engineer with 3 years of experience building dynamic UIs, optimizing application performance, and delivering scalable web and mobile solutions. Looking for a role that allows me to expand my expertise in front-end and full-stack development while driving impactful user experiences and business outcomes.

EXPERIENCE SUMMARY

- **3 years of professional experience** in software development with strong expertise in **Angular-based UI development** and **backend application development**. Proven ability to design and deliver **scalable, high-performance solutions** using **object-oriented principles** and **repository design patterns**.
- Currently working as a **Software Engineer** specializing in building dynamic and responsive web applications.
- Skilled in **Angular** 17+ framework, creating simple and scalable code for **SPAs**.
- Developed robust **SPAs** using **Angular** 17+ and **ASP.NET Core Web API**, focusing on efficiency and clean code.
- Experienced in developing **self-contained, reusable** and **testable modules** & components.
- Skilled at **working both independently** and **collaboratively in team environments**.
- Possesses **strong problem-solving, organizational, and communication skills**.

PROFESSIONAL EXPERIENCE

- Currently Working in **Vivid Minds Private Limited**, Hyderabad from Feb 2025 as a **Software Engineer**.
- Worked as an **Associate Software Engineer** in **Vivid Minds Private Limited**, Hyderabad.

ACADEMIC QUALIFICATION

- Completed B.Tech in **Electronics and Communication** Engineering from **Vaagdevi Engineering College (affiliated with JNTU Hyderabad)**, Warangal, during 2019–2022.
- Completed Diploma in **Electronics and Communication** Engineering from **Government Polytechnic, Warangal**, during 2016–2019.

TECHNICAL PROFICIENCY

Programming Languages	: Typescript, JavaScript, C#, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap.
Platforms & Frameworks	: Angular, ASP.NET CORE, Web Api
Databases	: PostgreSQL
IDE's	: Visual studio (2019), VS code
Web Servers	: IIS

PROJECT PROFILE

The details of the various assignments that I have handled are listed here:

- **Project 1:**

Organization	Vivid Minds Private Limited
Project Title	Quixy
Client	Product based
Environment	Angular, HTML, CSS & Bootstrap, Sync-Fusion ASP.NET Core Web API, Font-awesome.

Description:

- Quixy is a powerful **no-code application development platform** that enables users to build custom apps without writing code.
- Supports **workflow automation, task management, data handling, report creation, and dashboard visualization.**

- Offers an intuitive **drag-and-drop UI builder** for designing interfaces tailored to business needs.
- Includes a **visual workflow builder** to model and automate simple to complex business processes.
- Provides **pre-built applications** that can be used as-is or customized for specific organizational requirements.
- Built using a modern tech stack including **Angular 19**, **.NET Core**, **PostgreSQL**, **OpenAI APIs**, and **Sync fusion**.

Roles and responsibilities:

- Developed and enhanced front-end modules using **Angular 13–19**, ensuring responsive, scalable, and user-friendly UI components.
- Built and optimized reusable UI elements using **Angular Material**, **Sync fusion**, **CSS & SCSS**, and custom directives.
- Designed and maintained **RESTful APIs** in **.NET Core**, supporting workflow automation, form builder, and dashboard modules.
- Collaborated closely with product managers, testers, and designers to refine requirements and deliver scalable features aligned with business needs.
- Designed drag-and-drop UI features and workflow automation elements to enhance the platform’s no-code capabilities.
- Conducted detailed debugging and resolved **300+ bugs**, ensuring platform stability, cross-browser compatibility, and improved user experience.
- Participated in **Agile/Scrum** ceremonies including sprint planning, daily stand-ups, code reviews, and retrospective meetings.
- Ensured code quality through version control (**GIT**), unit testing, and best practices in both frontend and backend development.
- Contributed to documentation, feature demos, and knowledge transfer sessions to support team collaboration and product scalability.

• **Project 2**

Organization	Vivid Minds Private Limited
Project Title	Caddie
Client	Product Based
Environment	Angular, HTML, CSS & Bootstrap, Sync-Fusion ASP.NET Core Web API, Font-awesome.

Description:

- AI-powered data intelligence and reporting platform designed to transform raw data into meaningful, actionable insights.
- Enables non-technical users to generate reports, detect anomalies, and analyse trends using simple **natural-language inputs**—no coding required.
- Provides real-time data synchronization, AI-driven analytics, and customizable dashboards for enhanced decision-making.
- Built 20+ responsive user interfaces using **Angular 19**, improving user efficiency and task completion speed by **30%**.
- Integrated backend APIs to deliver real-time reporting, seamless data flow, and dynamic visualization components.

Roles and responsibilities:

- Developed responsive and reusable **UI components** using **Angular 19**, ensuring clean architecture and high performance.
 - Designed and implemented **advanced chart visualizations** using **Sync fusion Charts**, enabling clear representation of **complex data trends** and business metrics.
 - Handled **large and high-volume datasets**, optimizing data processing, rendering, and visualization performance for real-time analytics.
 - Implemented AI-driven analytics, enabling natural language-based report generation through integrated AI models.
 - Optimized chart rendering performance using change detection strategies, lazy loading, and efficient data-binding techniques.
 - Created interactive dashboard components with drill-downs, filters, tooltips, and dynamic visual elements for enhanced data exploration.
 - Collaborated with backend and AI teams to ensure seamless flow of structured and unstructured data to charts and dashboard modules.
 - Performed thorough debugging and resolved UI issues related to data loading, chart rendering, API integration, and performance bottlenecks.
-

PERSONAL DETAILS

Father's Name : Mr. Shankaraiah Akkenakunta
Mother's Name : Mrs. Sharadha Akkenakunta
Date of Birth : 24th April, 2000
Nationality : Indian
Languages Known : English, Telugu, Hindi
Permanent Address : HNO: - 58-6-21, Kadipikonda, Kazipet, Hanumakonda, Telangana,
506003

DECLARATION

I hereby declare that every piece of information provided above is true to the best of my knowledge.

Place: Hyderabad
